Aglow Technology Sdn. Bhd.

First Quarter, 1 January to 31 March 2023

INTRODUCTION

In this assignment a new company, Aglow Technology Sdn. Bhd is created for the sake of this project and shows how accounting is used in a business from its first quarter of operation. The report describes the company, records its transactions, and prepares the journal, ledger, trial balance and financial statements for the quarter ended 31 March 2023.

COMPANY BACKGROUND

Aglow Technology Sdn. Bhd. is a start-up technology trading company based in Kuala Lumpur, Malaysia. It was set up by five owners, a group of former Google users and engineers, and it began trading on 1 January 2023 when the owner put RM800,000 into the business. The company buys electronic parts and sells them to business customers. Its first-quarter business partners are Blangue Sdn. Bhd. and Jack Technology Sdn. Bhd. as suppliers, and Nicholas Sdn. Bhd., Najihah Sdn. Bhd., Farah Sdn. Bhd., Jason Sdn. Bhd. and Kencana Punya Travel as customers. The company is in Bukit Bintang, in the centre of Kuala Lumpur, and it hopes to grow steadily and build a good reputation in Malaysia and the ASEAN region.

COMPANY PRODUCT OVERVIEW

Aglow Technology deals in the parts used in electronic devices such as mobile phones and cameras. The goods bought from the main supplier are aluminium, CT100 testers, lithium-ion batteries, printed circuit board assemblies (PCBA) and LCD screens. The report shows pictures of the inside of a mobile phone and of a camera to show where these parts are used. The company cannot make the products itself because it is small, so it works with reliable local manufacturers and sells good quality and innovative designs to its customers.

COMPANY TRANSACTION

Number	Date	Transaction
1	1 Jan	The owner put RM800,000 into the business

ASSUMPTIONS AND ADJUSTMENTS AT 31 MARCH 2023

Some information was not given in the transactions, so the assumptions below were made.

No.	Assumption
A1	Van is depreciated by straight line method at 20% a year with no residual value. A full month is charged in the month of purchase (Jan to Mar = 3 months).
A2	Lorry is depreciated by straight line method at 20% a year with no residual value (1 month, bought in March).
A3	Warehouse is depreciated by straight line method at 2% a year (50 years) with no residual value (1 month, bought on 29 March). No land value is separated.
A4	Stationery on hand at 31 March is RM3,000, so RM5,000 of the RM8,000 bought has been used.
A5	Insurance of RM500 is for a 12-month policy starting 17 Feb. Two months (Feb and Mar) are used and 10 months are prepaid.
A6	Closing inventory at 31 March is RM30,000 at cost. There is no opening inventory because it is a new business.
A7	Transaction 1 and all expenses are paid in cash. The warehouse is bought on credit and is not yet paid at 31 March.
A8	The financial statements are for the first quarter (1 January to 31 March 2023). No income tax is provided because the company has a loss.

Adjustment	Working	RM
Depreciation: van	60,000 x 20% x 3/12	3,000
Depreciation: lorry	65,000 x 20% x 1/12	1,083
Depreciation: warehouse	180,000 x 2% x 1/12	300
Stationery used	8,000 - 3,000	5,000
Insurance used	500 x 2/12	83
Prepaid insurance	500 - 83	417
Closing inventory	Given	30,000
